- Completed 50 days **challenge** in LinkedIn as a part of coding challenge.
- Mentored and assisted as **Teaching assistant** at NXT Wave as Full Stack developer and solving issues of the clients, highlighting strong problem-solving skills and technical expertise.
- Earned the Second rank in Fastrack workshop which conducted in **BITS PILLANI**, HYD.

## WORK EXPERIENCE

### FULL STACK DEVELOPER | NXT Wave, Hyderabad

(09/2022 – 05/2023)

#### Project1 | To-dos Application, NXT Wave, HYD

**Technologies:** HTML | CSS | JavaScript | Bootstrap | API | SQL

A to-do application provides a convenient and efficient way to create, Track, and prioritize tasks, ensuring that nothing important gets overlooked.

#### Responsibilities:

- Displayed list of to-dos with HTML list elements, styled to-do list using CSS, Bootstrap.
- Implemented to-do crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects, and their methods during to-do list CRUD Operations, persisted to-do list state on page reloads using local storage methods.
- The application should allow users to create tasks with relevant details such as title, description, due date, priority, and any additional information. It should provide functionalities to edit, update and delete tasks as needed.

## **Project2 | Food Munch | NXT Wave, HYD**

**Technologies:** HTML | CSS | bootstrap | Navbar

Food Munch is a responsive website for a restaurant, where you can see a list of food items, offers and other information.

### **Responsibilities:**

- Navbar, I have used the bootstrap navbar here once it was responsive where we can shift to different sections.
- Apart from that I have also implemented header, payment and offer sections where customer can redeem their coupons.
- Designed with a user-centric approach, this website features HTML structure elements and bootstrap components to ensure a seamless experience.
- Conducted thorough testing and debugging to identify and resolve issues, resulting in a stable and reliable payment system.
- Actively participated in code reviews, providing valuable feedback to improve code quality and maintain best practices in Full stack development.

## **PYTHON DEVELOPER | SYNC INTERN, Allahabad**

**(06/2023- 07/2023)**

- Having Internship experience as **Python Developer** at **SYNC INTERN** where I have done real time projects like developing **Alarm clock**, **Chatbot AI** and **OTP Verification**.
- The projects include various modules and libraries like datetime, time, **winsound**, **nlk**, **smtplib** and frameworks like chatterbot which showcases the ability to create practical applications.
- Adding more advanced **NLP** (National language processing) techniques to improve the **chabot's** understanding and integrating with external APIs to provide more informative responses.

## **DEPUTY MANAGER | ICICI BANK, Hyderabad**

**(09/2021 – 09/2022)**

- Transaction Banking - Handling Day to Day Transactions and Account opening process related to current account.
- Responsible for Monitoring business, compliance, and operations.
- Responsible for taking decisions that are cost effective and generate revenue.
- Having Good Relationship with clients and delivering the projects as per the customer requirements and needs

## **EDUCATION**

### **PGDB (Post Graduate in Diploma) in Banking & Finance**

Manipal University, Karnataka

**Graduation Year (2022)**

### **BTech (Bachelor of Technology) in Mechanical Engineering**

JNTU University, Hyderabad

**Graduation Year (2019)**

## **CERTIFICATIONS**

- Certified Python & SQL - Hacker Rank
- Introduction to Python Programming - Infosys
- IT Support (Fundamentals) - Google
- Communication Skills - TCS ion
- HTML, CSS, Bootstrap, JavaScript, React.js, Node.js – NXT Wave
